

Please do not expand the ability for the new LPFM stations to take priority over current FM translator service in the US. This would very possibly affect the KLOVE broadcast in my local area.

KLOVE radio is the only station in my area playing almost continual inspirational music. It would be difficult to explain what a positive effect this station has had and is having on my family and myself.

It is the only station in my area that will take a counseling call 24 hrs per day. And this would be council I would trust.

If KLOVE were displaced there would be no service of equivalence available in the Fairbanks area. They are very well organized, and not only do they provide music that improves our day to listen to, but attract interviews with top artists who would likely never be interviewed in Fairbanks.

In addition to this, similar to 'the web', KLOVE links almost the whole US and some of the world together in music, news, events, and most importantly in prayer.

This station is in national interest as they encourage people to pray for our leaders, and to vote, and to participate in other community activities.

Allowing other stations to override this station would be a tragedy and this station would be severely missed by many in our community.

Thank you
